

Statement of Ed Martin Regarding More Spending Votes by Russ Carnahan

"Once again, Russ Carnahan is joining Nancy Pelosi in spending billions of American taxpayers' hard-earned dollars. Today's 2500 page, \$446.8 billion Omnibus Spending Bill is another insult to hard-working Americans. As we tighten our belts and try to get by in these lean times, Carnahan and Pelosi spend and spend without regard for our future."

"Earlier today, Congressman Carnahan phoned into the Charles Jaco Show on AM 550 (KTRS) and found himself at a loss to explain why the Congress was spending its time on attempting a government takeover of health care instead of focusing on the economy. Now, we know why! The only thing Carnahan knows how to do is spend, spend, spend and, although the Chinese may thank him as they buy up our debt, future generations will remember him and his Congress with disdain."
